With the commencement of the new academic year, Goa University Library is organising an offline in-person engagement session for faculty members and PhD students on the effective use of Scopus, ScienceDirect, and Generative AI in academic research. This session aims to equip participants with practical insights into research discovery, responsible AI adoption, and the effective utilisation of scholarly resources.

## Session Details:

Date: 9th July 2026 (Thursday)

Time: 3:30 pm – 4:30 pm

Venue: Library Periodical Section

## Topics to be covered:

- Navigating Scientific Research through Scopus Effectively
- Best Practices for Literature Review and Research Discovery
- Responsible Use of Generative AI in Academia and Research
- The session will include hands-on demonstrations and practical exercises. Therefore, participants are requested to bring their laptops to make the most of the training.
