attended/participated	
8. Number of Student attended / participated	31
9. No. of external students/faculty/other participants	-
10. The objectives of the Program/activity/event	The purpose of the talk was to bridge the gap between academic learning and industry expectations by helping students understand the practical skills required in professional environments. The session intends to develop problem-solving ability, communication skills, professional ownership, teamwork, and continuous learning. It session would highlight the importance of project work, GitHub portfolios, resumes, LinkedIn presence, and effective use of AI tools in career growth.
11. Description of the Program/activity/event	The talk covered essential industry-readiness skills required for professional success beyond academic performance. It highlighted differences between college learning and industry expectations, focusing on problem-solving, communication, execution, teamwork, and ownership. The session discussed handling real-world challenges, building impactful resumes, maintaining GitHub and LinkedIn profiles, and showcasing proof of work through projects. It also emphasized effective professional communication and the responsible use of AI for learning, coding assistance, and interview preparation. Overall, the talk encouraged continuous learning, adaptability, and proactive career development.

12. Benefit/Key outcomes of the Program/activity/event	By the end of the talk, participants gained a clear understanding of industry expectations and the skills needed for professional success. They learned the importance of problem-solving, communication, project execution, and professional ownership. The session also improved awareness about resume building, LinkedIn and GitHub visibility, and effective use of AI tools, helping students become more confident, proactive, and industry-ready learners.
